

Editorial Points Of View

Organic Gardening empowers readers to lead simpler, more efficient lives and to make positive connections with their world through their gardens. In 2010, we celebrate our readers connection with a relaunch that brings them the good things that come naturally in life. That includes fresh ideas for home-cooked meals, innovative ways to preserve the harvest, and sound advice from nutrition professionals, to help readers use their garden to truly live their whole lives.

SIMPLY FRESH

Features home-grown or farmers market fresh ingredients, and follows them from garden to table – including growing and harvesting tips, cooking and serving suggestions and nutritional recommendations.

PROVIDENT COOK

This seasonally focused section provides readers with tips on how to preserve the season's freshest produce to enjoy year round.

BIBENDUM

Sharing the joy of drinking – organically, sensibly and knowledgably, and visiting the vineyards, boutique breweries and organic orchards where wholesome drinks are born.

COMMON GROUND

Exploring what “living lightly from the ground up”, means, this section provides readers with expert insights into the world of integrated living, focusing on the garden as a source of wellness.

EARTH MATTERS

News and views related to the environment, providing readers with the most up-to-date information on organic lifestyle, health and well-being.

Editorial Points Of View

DESIGN LIKE A PRO

Guided by professional designers, we take our readers through featured gardens and provide them with inspiring master plans to transform their personal space into an oasis for their family and friends to enjoy.

PLANT TNT

The best way to have a healthy garden is to find the best plants to suit your site. Each month we present readers with the plants that best meet a specific garden need and give the most bang for their buck, featuring ornamental gardens, perennial plants, shrubs, trees, bulbs and more.

FLOWER POWER

Features herbal and floral traditions and innovations for health and beauty and holistic homecare, straight from the organic garden.

PAY DIRT

In the 1940s, J.I. Rodale wrote about the importance of enriching soil organically, and this section, dedicated to this premise, provides readers with the facts and science behind their garden.

WE LIKE THIS!

This marketplace round-up provides readers with themed reviews of our favorite organic gardening and living products. Includes handy links to expanded e-commerce reviews on OrganicGardening.com.

SKILLS AND ABILITIES

Gardening is a global language, and this section provides readers with information about useful skills every gardener should know and could acquire, gathered from gardens and gardeners world-wide.
